

YOU SAID, WE DID

We take your feedback seriously. Here are some examples of changes we have introduced since the last Student Town Hall TT25.

You need a way for sharing questions/concerns with the College

We have an anonymous student feedback form on the SEH website

You want more food facilities

We have planning permission for a café outside the library

You want to hear more from the Governing Body Fellowship

We will share Governing Body meeting summaries

You want to build a more inclusive culture

We are exploring running more consent and gender equality training

You want student input over College investments

We are considering student representation on the Investment Sub-Committee

You want more usable communal spaces

We opened the Well Bar 10am-6pm; We are renovating the open space between Kelly and Emden; We are planting a flower meadow in the Churchyard
